

Chlorpyrifos-methyl

The quantification is within your reach

Chlorpyrifos-methyl is a powerful pesticide, it has proven its efficiency and utility throughout the years. With this use comes a big risk for consumers. Therefore, the European commission has revised downward the maximum residue levels of Chlorpyrifos-methyl authorized in the European Union. In order to ensure a good level of the new MRLs recommended in the EU, we offer you now the possibility not only to quantify the levels of the pesticide active substance Chlorpyrifos-methyl but also for its metabolite Desmethyl Chlorpyrifos-methyl.

All our products are delivered with a detailed **Certificate of Analysis**

Product N°	Product Name
C7740	[² H ₁₀]-Chlorpyrifos
C8016	Chlorpyrifos methyl
C8018	Desmethyl chlorpyrifos methyl

Certified 1mg pack size available

Label Your Life

Alsachim is one of the world leaders in the synthesis of stable labeled (13C, 2H, 15N) internal standards, stable labeled building blocks, APIs (Active Pharmaceutical Ingredient) and metabolites used in Bioanalysis studies. Based on its expertise, Alsachim develops also Therapeutic Drug Monitoring devices to support hospitals and bioanalysis centers to their daily work and routine operation.

We supply our products to customers all over the world, spread throughout the chemical discipline including the pharmaceutical and biotech industry, clinical and bio-analytical CROs, and research institutions, in different applications.

- Health
- Forensic & Toxicology
- Doping agents
- Environment
- Food & Beverage

Alsachim offers a comprehensive Certificate of Analysis including chemical purity determined by HPLC/UV analysis, LC/MS analysis, Mass spectrum, 1H, 13C, 19F, 31P NMR spectra.

I We guarantee our compounds over **98%** pure and **98%** isotope with **no unlabeled** isotope detected
